SUMMARY

With 1+ years of experience in frontend development, I specialize in delivering dynamic, user-centric web applications. I am passionate about creating seamless user experiences and am currently expanding my skills in both backend and frontend technologies. My ability to quickly adapt, collaborate with cross-functional teams, and drive technical growth prepares me for further challenges in full-stack development.

EXPERIENCE

UI Engineer

ParallelHQ

📅 January 2024 – Ongoing 📍 Bengaluru, India

- Improved website performance by 30% through the use of modern web analysis tools and optimization practices.
- Delivered multiple client projects on time, adhering to strict deadlines and maintaining high standards of quality and precision, leading to consistently positive client feedback.

UI Engineer Intern

ParallelHQ

📅 May 2023 – October 2023 📍 Bengaluru, India

- During my internship at ParallelHq, I gained hands-on experience with Webflow, Finsweet, GSAP, TypeScript, and advanced JavaScript. I contributed to building dynamic, interactive web experiences, optimizing frontend performance, and refining my skills in modern web development tools and technologies.

PROJECTS

⚙ **VidSquashs**
Video compression tool built using Nextjs, ffmpeg.wasm ShadcnUi and TailwindCss. With this user can effortlessly compress the video in the browser itself.

⚙ **Home Stays**
A homestays booking app with Next.js, TypeScript, Prisma, Supabase, ShadcnUI, and TailwindCSS. Enables users to search, book, and manage stays

SKILLS

C++ Javascript Typscript
Problem Solving

React.js Next.js Zustand TailwindCss
Webflow GSAP

Node.js Express API development
MongoDB Mongoose ORMs

Git Github ChatGPT

EDUCATION

Master's of Computer Science & Applications

Panjab University

📅 July 2021 – August 2024

Bachelor of Science (Honours) in Mathematics

Delhi University

📅 July 2018 – July 2021

KEY ACHIEVEMENTS

🏆 **Design-Driven Job Listings on company website with Node.js Backend**
Implemented a custom Node.js backend hosted on Cloudflare Workers to securely integrate Recruitee job listings on our Webflow site, overcoming Webflow's .env limitations to achieve a secure, design-consistent solution.
